- Intro to Proofs, Analytical Physics, Linear Algebra, and Discrete Mathematics.

Work Experience

The College of Idaho Baseball Program – Student Athlete

Aug 2019 - May 2023

Caldwell, ID

- Navigated numerous instances of adversity and overcame difficult obstacles both as a dedicated student and a committed athlete.
- Provided me the opportunity to showcase my leadership abilities, empowering and facilitating the success of both myself and those around me.
- Improved my teamwork skills and helped me develop a strong commitment to meeting deadlines and managing my time.

Healthwise – Quality Assurance Intern

Jun 2022 - Aug 2022

Boise, ID

- Collaborated as a manual tester for the Quality Assurance team, assisting in the oversight of multiple Healthwise products and specializing in reporting bugs.
- Worked with a team of individuals that consisted of software developers, accessibility experts, and other manual testers to ensure the quality of the Healthwise healthcare products my team was in charge of.
- Contributed to the software development cycle, performing QA and manual testing for new developments and supporting existing software.

Hansen Construction – Laborer

Jun 2016 - May 2022

Everett, WA

- Assisted general contractors with the efficient handling of materials, including loading, unloading, and managing debris disposal.
- Developed a robust work ethic, unwavering persistence, and the capacity to thrive in physically demanding work environments.
